MAIN SKILLS

OTHER SKILLS

- Next.js
- Typescript
- Git
- Docker
- MongoDB
- PostgreSQL
- Responsive Design
- ElasticSearch
- PHP
- Webpack
- REST

EDUCATION

Abitur

Gymnasium Marne Europaschule June 2016

I completed my Abitur, which is the highest basic education level at a regular school.

Student in Philosophy und Sociology

Georg-August Universität Göttingen August 2017

I studied philosophy and sociology for one year, but quickly realized, that it's not the right thing for me and attended online web development courses instead of going to sociology classes

PROJECTS

Splitterz

Septembre 2017 – March 2018

C#, Unity3D

My first contact with programming was a small video game for the mobile phone. I even uploaded it to the play store and got a couple 100 downloads.

Dithmarscher Galloways

Galloway farm // April 2018

HTML 5, CSS 3, Javascript, React, GatsbyJs

I created a small web presentation for a farm to increase their meat sales.

CrowdVoteCrypto

April 2018 – August 2018

HTML 5, CSS 3, Javascript, React, Redux, Node.js, Express.js, MongoDB, Passport.js, Git

I created a platform to check the current cryptocurrency prices with the addition of a chat room for each coin and a voting feature regarding the future of a coin's prices

Hosco

Full-Stack Entwickler // Barcelona // Octobre 2018 – Juli 2019

HTML 5, CSS 3, Javascript, Typescript, React, Redux, Next.js, Node.js, PHP, Angular 1, Docker, ElasticSearch, PostgreSQL, Git, SEO, Kubernetes

I was working as a full-stack developer on the platform to develop new features and improve existing ones. I was also doing a big part in transforming the frontend to React with Next.js.

PROJECTS

Plezzles

Juli 2019 - Present

HTML 5, CSS 3, Javascript, React, Next.js, Typescript, GraphQL, Node.js, Prisma, Prisma, Git, PostgreSQL, SEO, Docker

I created a platform for people to find and share unique places and events. You can also talk and connect with like-minded people in your area through communities.

I am very proud of this project and I am willing to give insights into the source code.

CERTIFICATES

Web Developer Bootcamp

April 2018

HTML 5, CSS 3, Javascript, Node.js, Express, Node.js, Passport.js

I completed a 43-hours online video course on Udemy, which taught me the basics of web development

Advanced Web Developer Bootcamp

Juni 2018

HTML 5, CSS 3, Javascript, React.js, Redux, Webpack, Babel

I completed another 34-hour online video course on udemy on advanced topic of web development. As exam I created a small full-stack application.

Javascript Algorithms and Data Structures

September 2018

Javascript, Algorithms

I completed a course on FreeCodeCamp about the more complicated topics of javascript and general programming patterns.

2019-07-01 @ Barcelona

To whom it may concern,

It is with great proud that I recommend Björn Rave to you as an excellent Software Developer. He has stayed at Hosco for only one year, but that was enough for the team to appreciate his hard work, competency and human kindness.

In his career, Björn has designed everything from frontend to backend, a real fullstack developer. His skills in React and Angular made him the best squad member to take care of the frontend migration Hosco decided to go through some months ago.

Björn takes a great deal of pride in what he does and he works very hard to achieve the exact results that the customer is looking for. He is always willing to help others, and has this "do it yourself" and "self taught developer" mindset that allows him to keep a focus on delivery while searching for the best solution for each problem.

He is dedicated, intelligent, responsible and he has never missed a deadline on the squad. If you need further insight into why Björn should be your next software developer, please feel free to email me at pablo@hosco.com.

Sincerely yours,

Pablo del Vecchio
