2019-07-01 @ Barcelona

To whom it may concern,

It is with great proud that I recommend Björn Rave to you as an excellent Software Developer. He has stayed at Hosco for only one year, but that was enough for the team to appreciate his hard work, competency and human kindness.

In his career, Björn has designed everything from frontend to backend, a real fullstack developer. His skills in React and Angular made him the best squad member to take care of the frontend migration Hosco decided to go through some months ago.

Björn takes a great deal of pride in what he does and he works very hard to achieve the exact results that the customer is looking for. He is always willing to help others, and has this "do it yourself" and "self taught developer" mindset that allows him to keep a focus on delivery while searching for the best solution for each problem.

He is dedicated, intelligent, responsible and he has never missed a deadline on the squad. If you need further insight into why Björn should be your next software developer, please feel free to email me at pablo@hosco.com.

Sincerely yours,

Pablo del Vecchio
